

C3 SPEC MEETING 02/12

AGENDA

New Business

- Discuss Canvas API
- Discuss getting 25Live onto a database

NOTES

- 25Live - Prints reports, then print it onto
- 25Live - Can we get it automated? Use an API to search for a specific event.
- Can we print the file on a regular basis?
- Print the file into a drop directory -> search
- Have it printed onto a blank page onto a private webpage. Check if there is information on that webpage, then read from it.
- If there is a file in the directory, if there are two then look at the latest file.

ACTION ITEMS

- Tyler talks to the 25Live to get clarification.
 - Extract data & work with Riley on the database
- Jack work on website
- Riley & Patrick work on website backend
- Patrick look at Google API
- Emily Documentation & website
- Have everything working by next Tuesday to begin testing
